

1

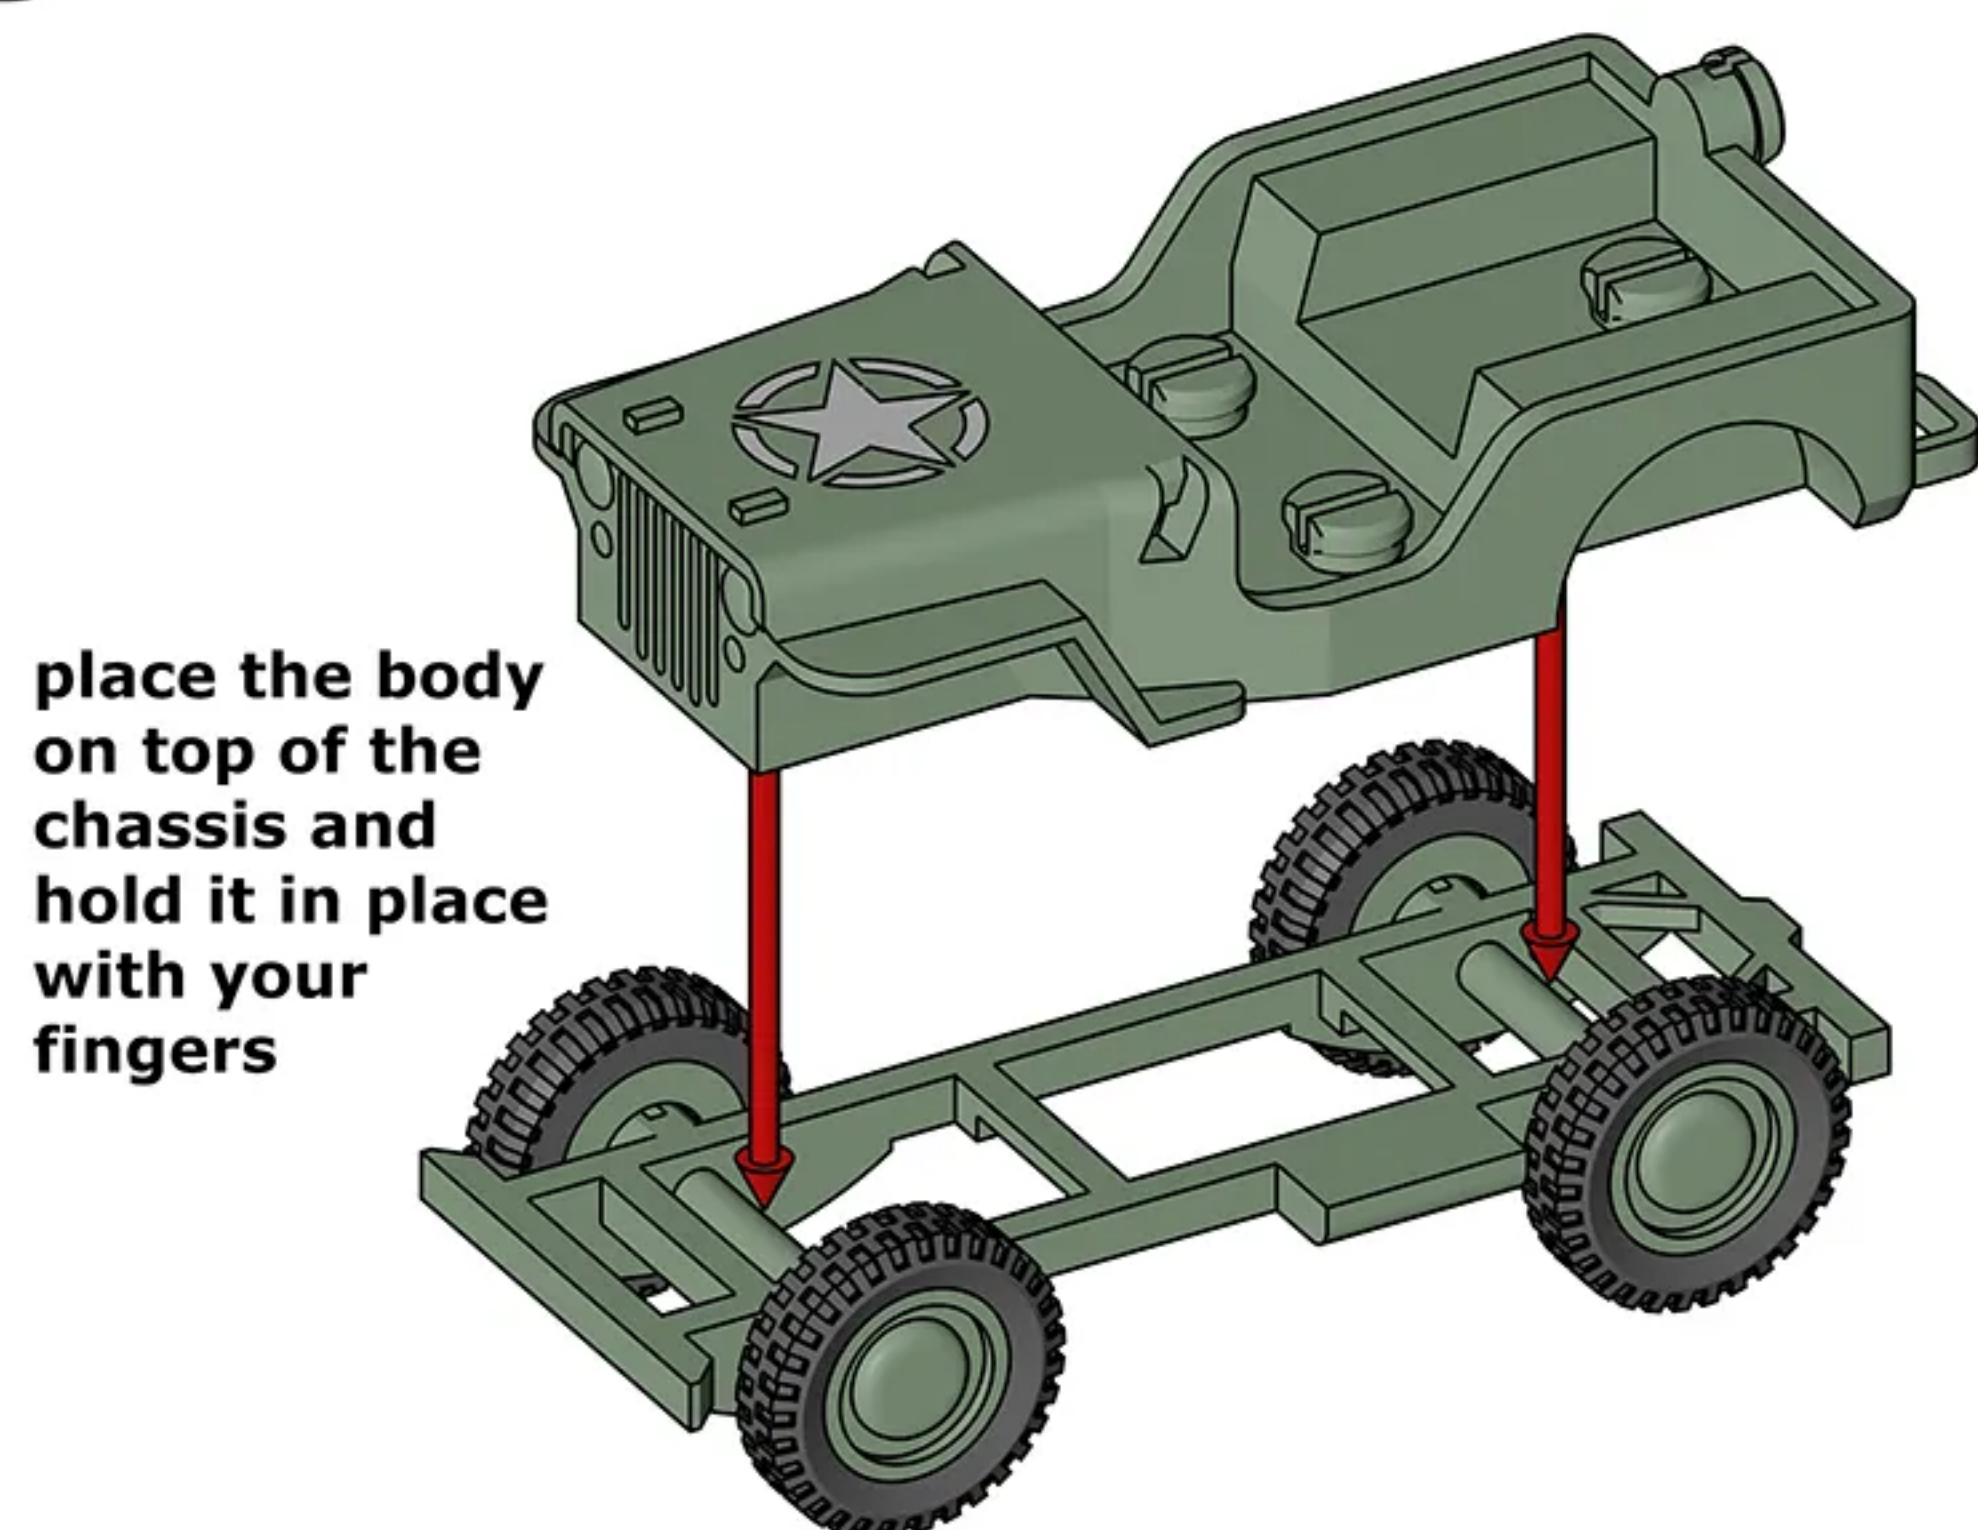

break off and remove
the built-in supports

2

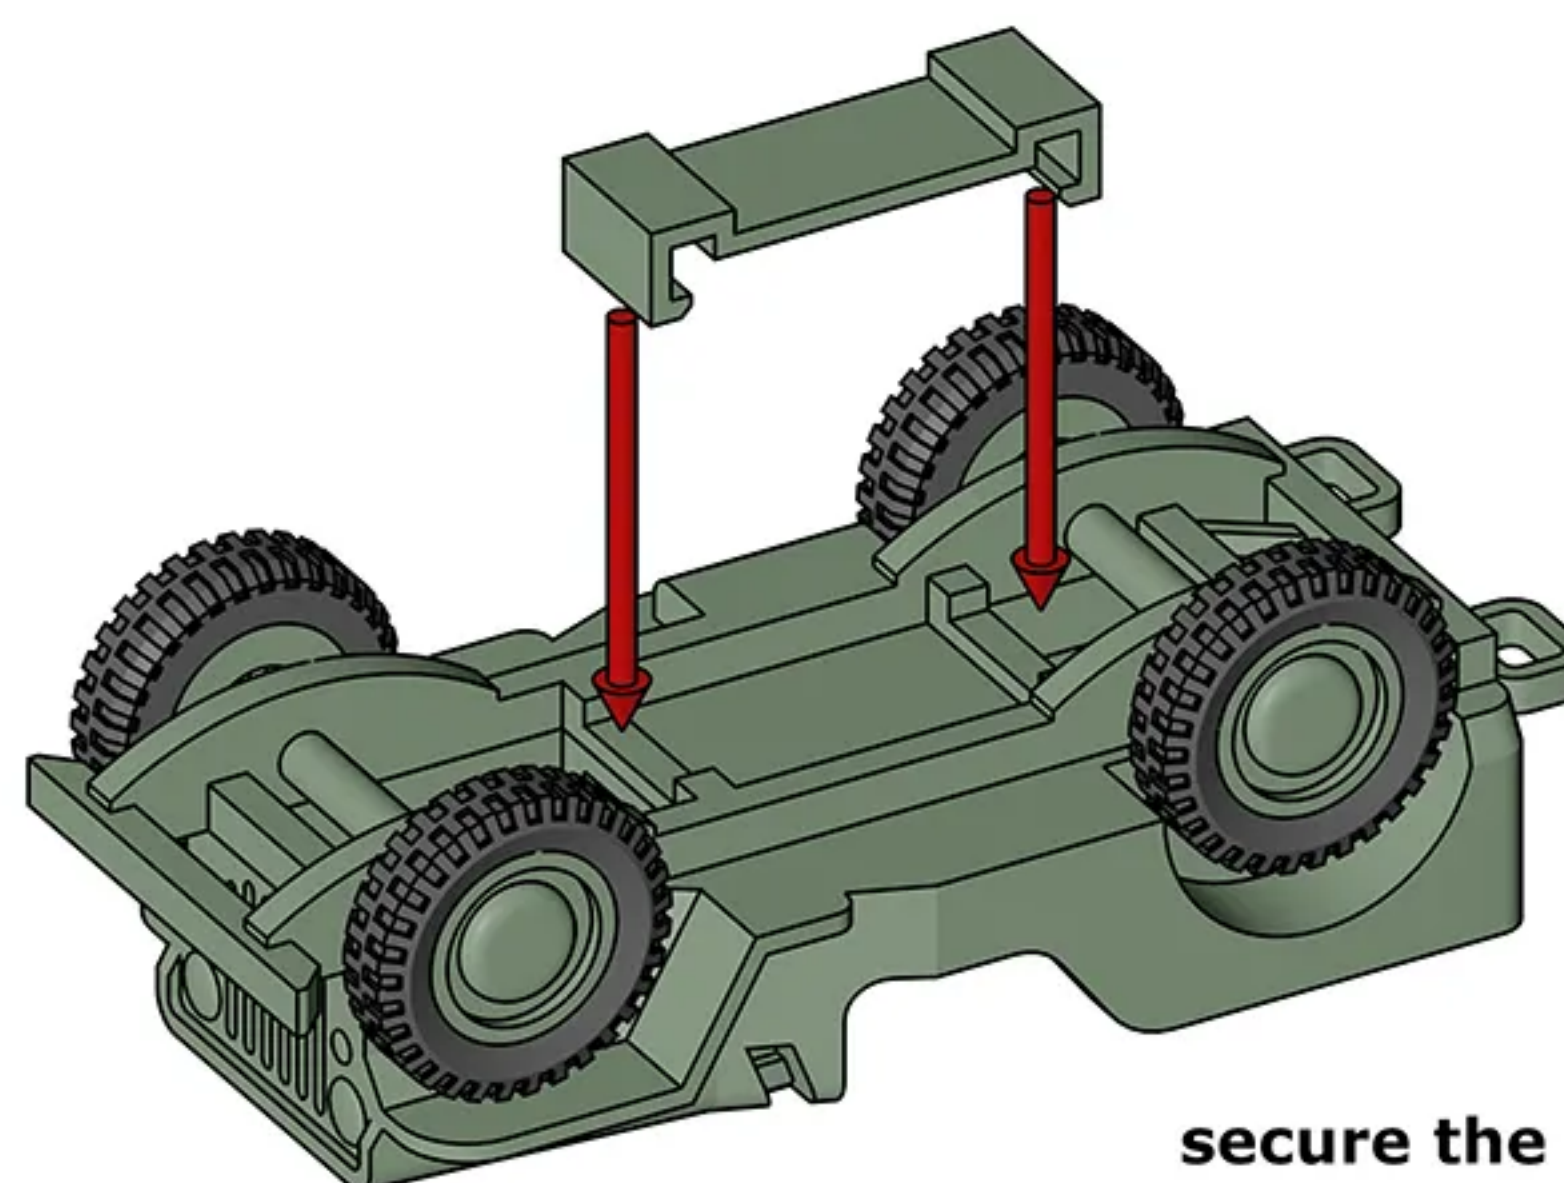

snap on the wheels.
their ability to spin
freely depends largely
on the print quality

3

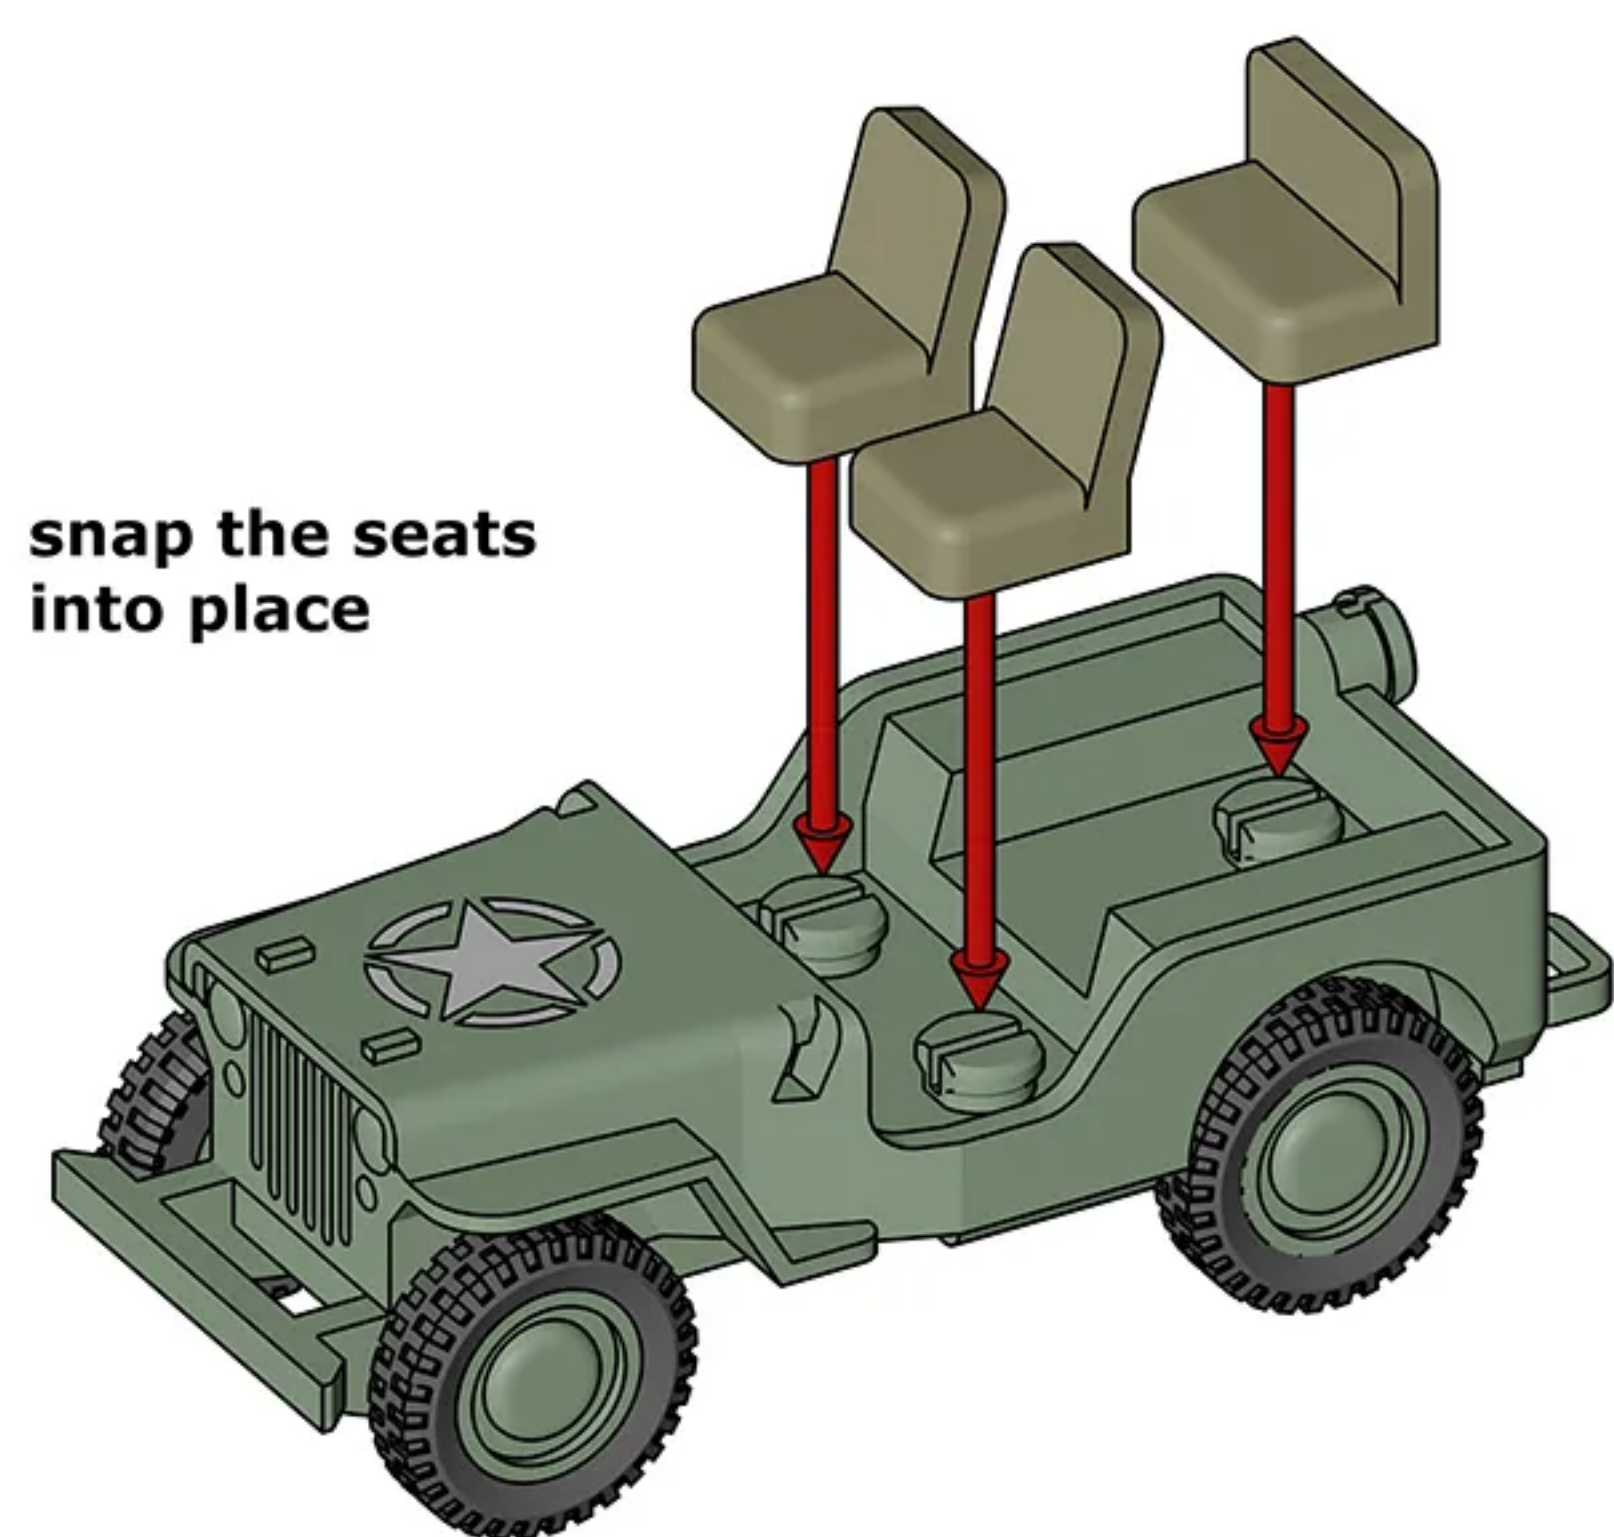

place the body
on top of the
chassis and
hold it in place
with your
fingers

4

secure the body to
the chassis using
the clip

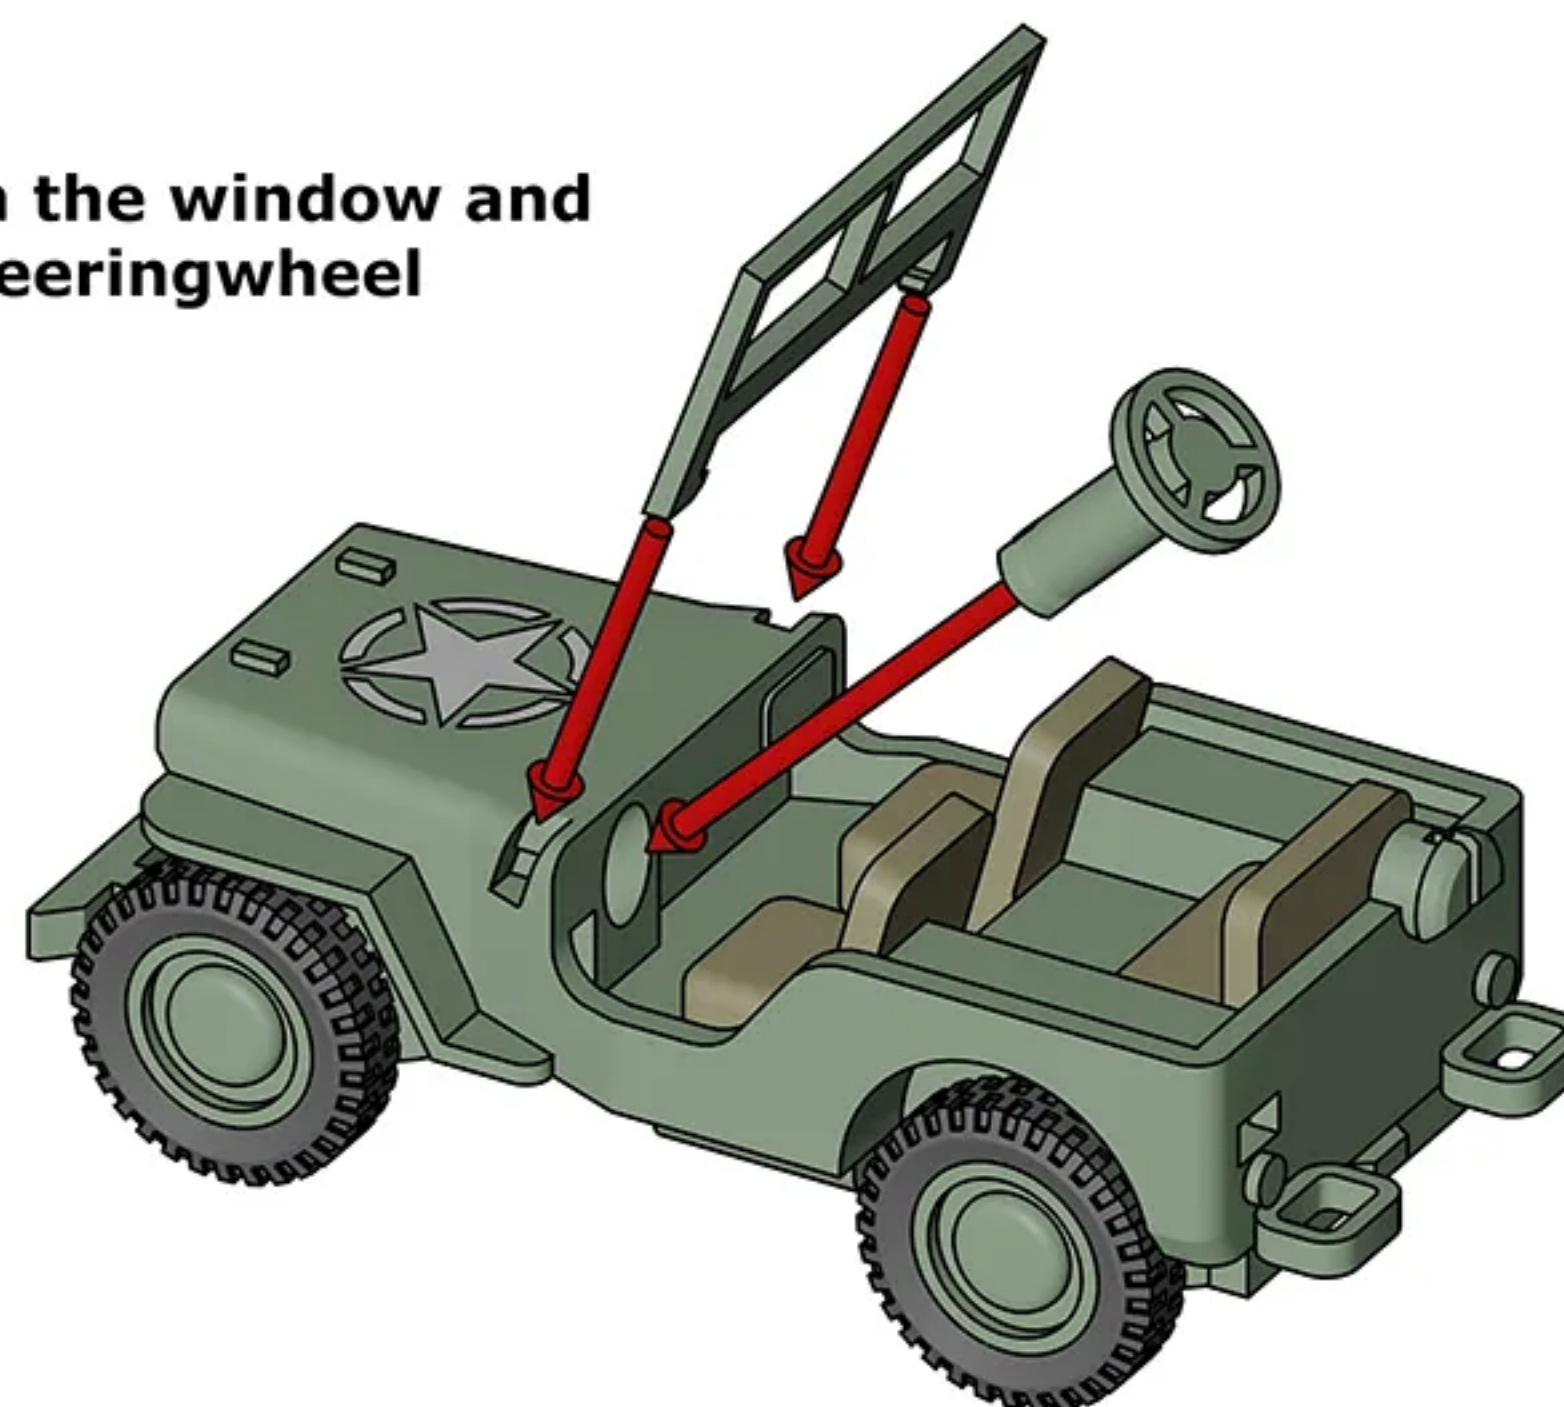

5

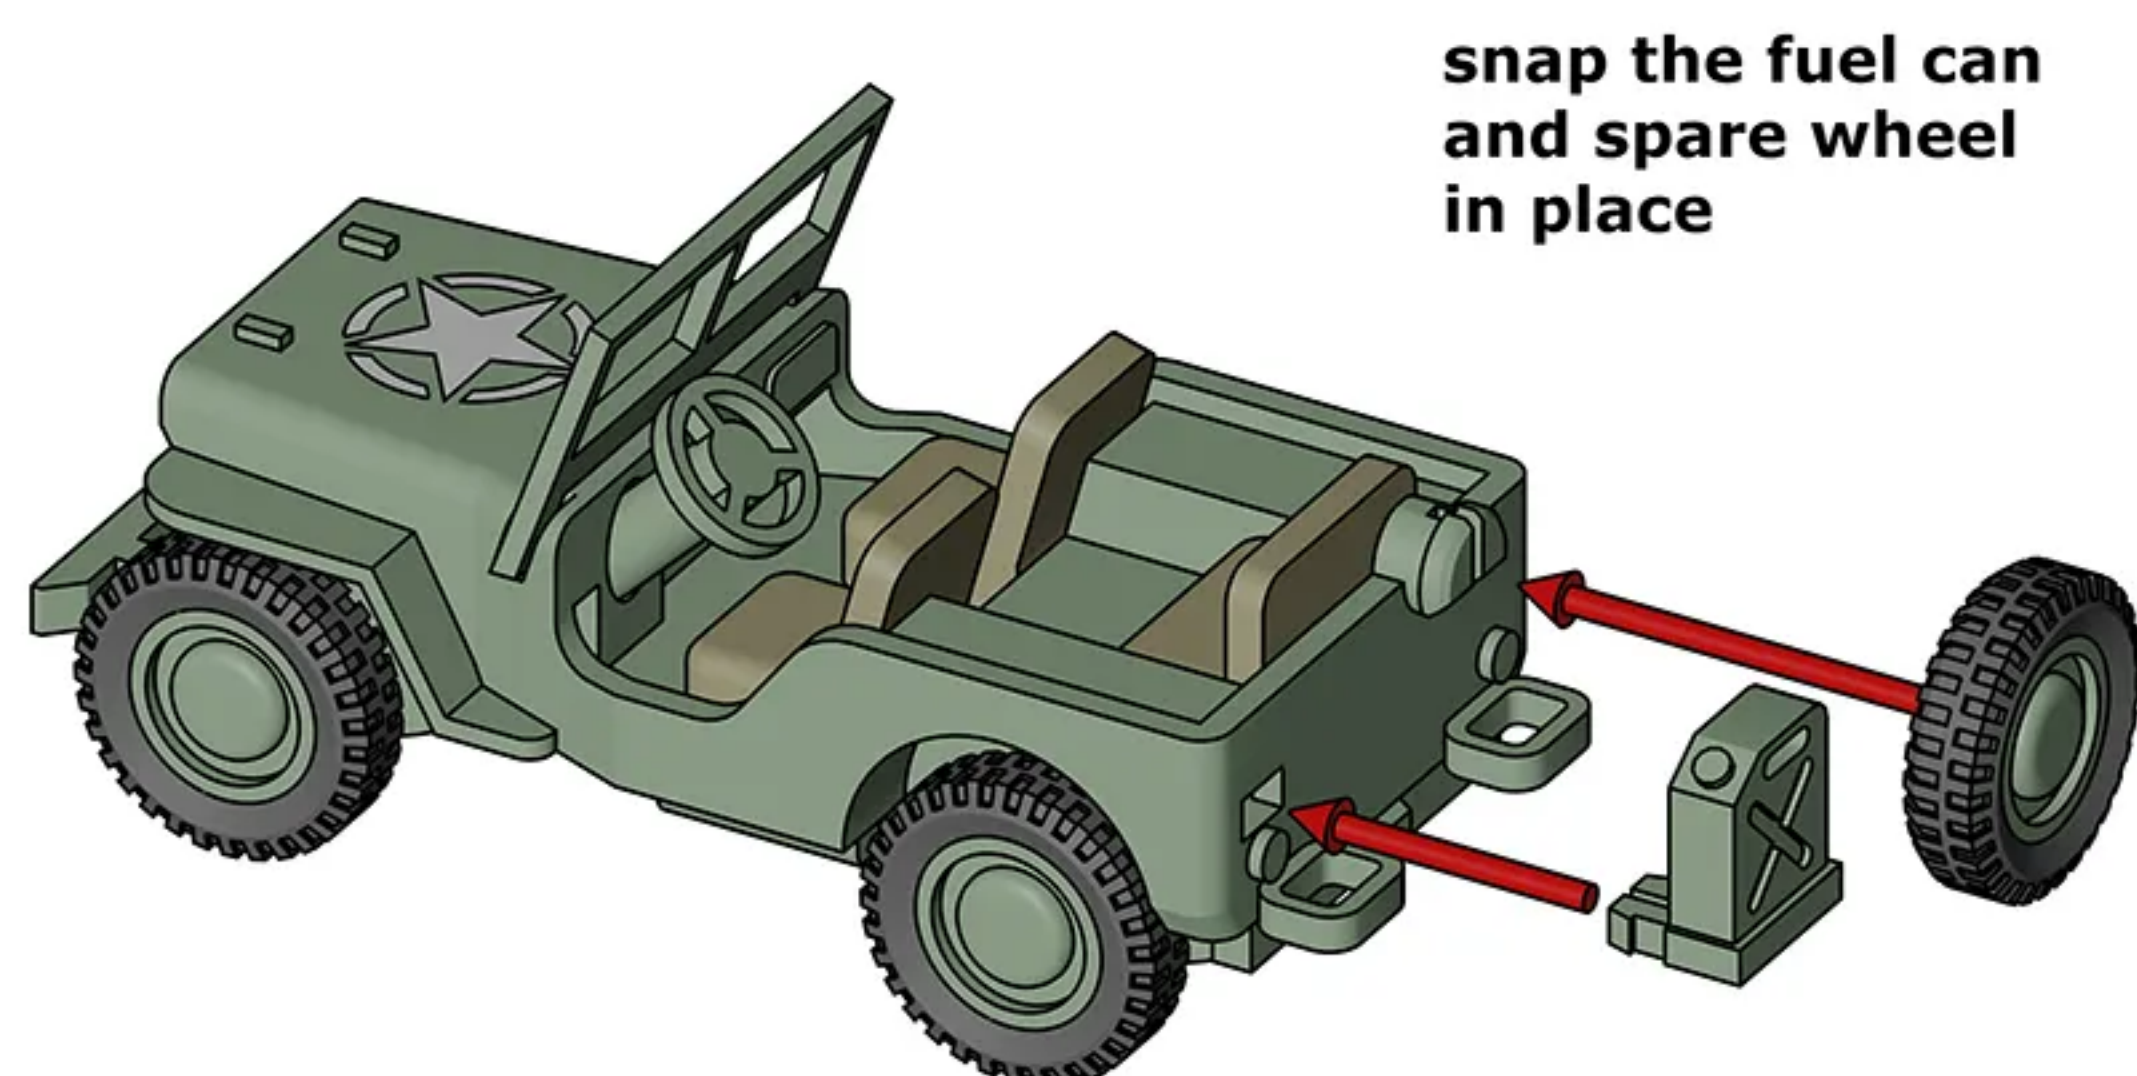

snap the seats
into place

6

attach the window and
the steeringwheel

7

snap the fuel can
and spare wheel
in place

8

the assembly
is complete!
